PPP project implemented in the field of transport

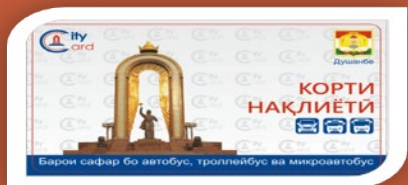

Project "Electronic payment and travel control system in public transport of the Dushanbe city"

# PPP project implemented in the field of transport

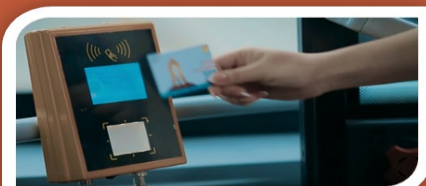

The public transport service of the city of Dushanbe is one of the priority areas and is of paramount importance for raising the standard of living and quality of life of people, introducing the capital of the country to guests and foreign tourists.

Electronic payment system that has the ability to organize a complete automated accounting of each passenger in a single system exists for many years in developed countries

This system automatically maximizes the process of using public transport vehicles and effectively promotes the city's transport services.

The efficiency of enterprises will increase by 15-20%, making the turnover more transparent at the enterprises.

# PPP project implemented in the field of transport

Citizens and guests of the capital do not use cash in public transport. Depending on the amount of cash card, the following can be: City Card, QR card, and preferential cards. Also, there is a possibility to pay travel via mobile app in smartphome.

**5 СОМОНӢ**  
Барои сафар бо автобус, троллейбус ва микроавтобусҳо

# PPP project implemented in the field of transport

Given the advantages, the executive body of Dushanbe introduced the system in the capital of the Republic of Tajikistan, Dushanbe, from the beginning of March 2018.

To this end, the project was launched by introducing an electronic payment system using the international best practices with the private partner Avesto Group LLC based on a public-private partnership mechanism.

# PPP project implemented in the field of transport

It should be noted that the project “System of electronic payment and control of travel in public passenger transport of the city of Dushanbe” is the latest project for the public transport sector in the Republic of Tajikistan, and its software has been fully developed by domestic experts. This project will contribute to the development of priority areas of the country in the use of innovative technologies.

# Thank you for your attention!
